DATA SHEET AND OPERATION MANUAL

	Florence Frames		
	1E5210130x-E, 1E5220130x-E, 1E5230130x-E, 1E5240130x-E, 1E5250130x-E		

Purpose of the product

The product is designed for installation and operation inside warm, dry rooms together with the main devices of Florence electrical installation products.

Using a cover frame on the example of the layout of the Florence SCHUKO socket

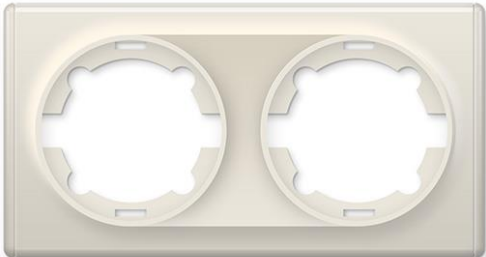

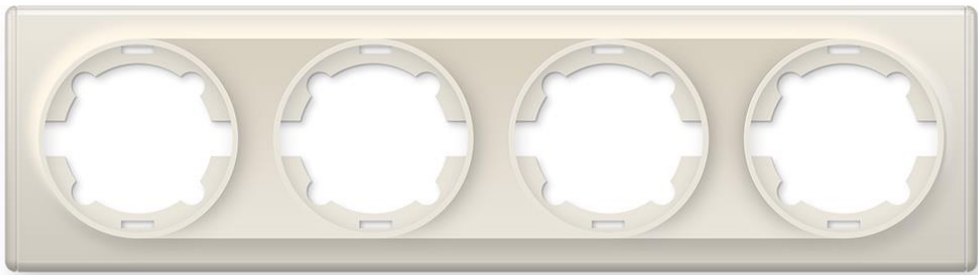

To install the finished product, you need a device with a front plate, as well as a cover frame. See frame selection table below.

An example of the layout of the SCHUKO socket:

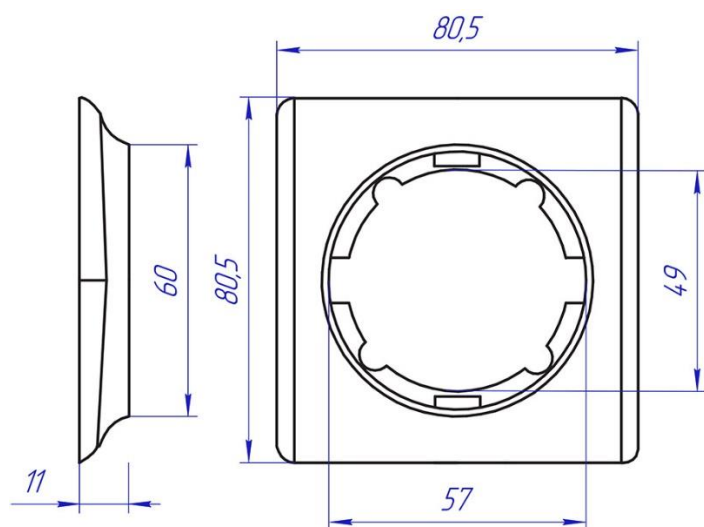

SCHUKO socket outlet 1E10101301-E beige	+	1-gang frame beige 1E52101301-E	=	Socket assembly
	+		=	

	Florence Frames
	1E5210130x-E, 1E5220130x-E, 1E5230130x-E, 1E5240130x-E, 1E5250130x-E

If it is necessary to install up to five devices in a row, the following types of Florence cover frames are suggested:

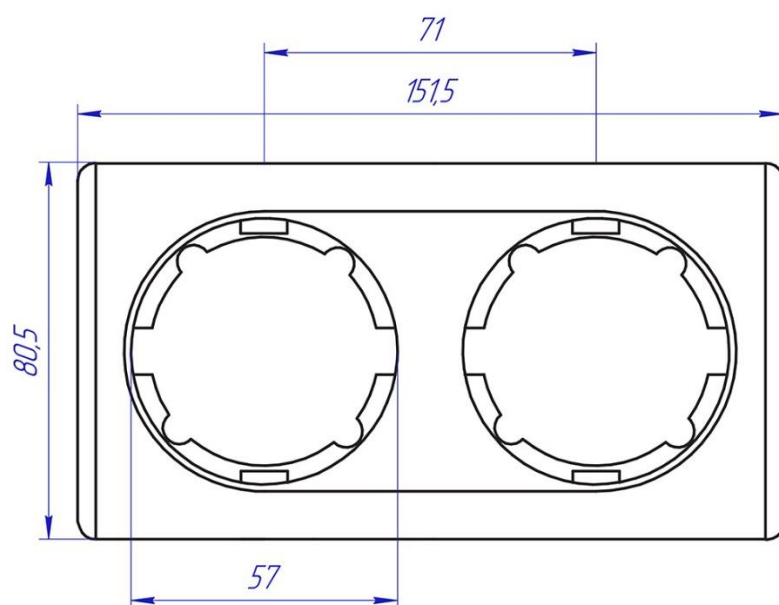

1-gang frame	
2-gang frame	
3-gang frame	
4-gang frame	
5-gang frame	

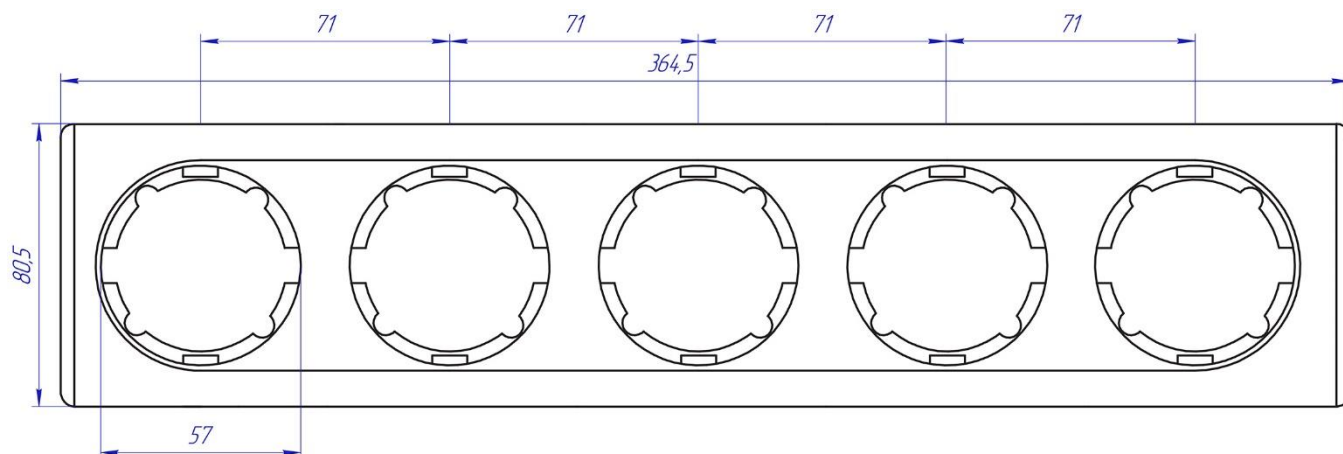

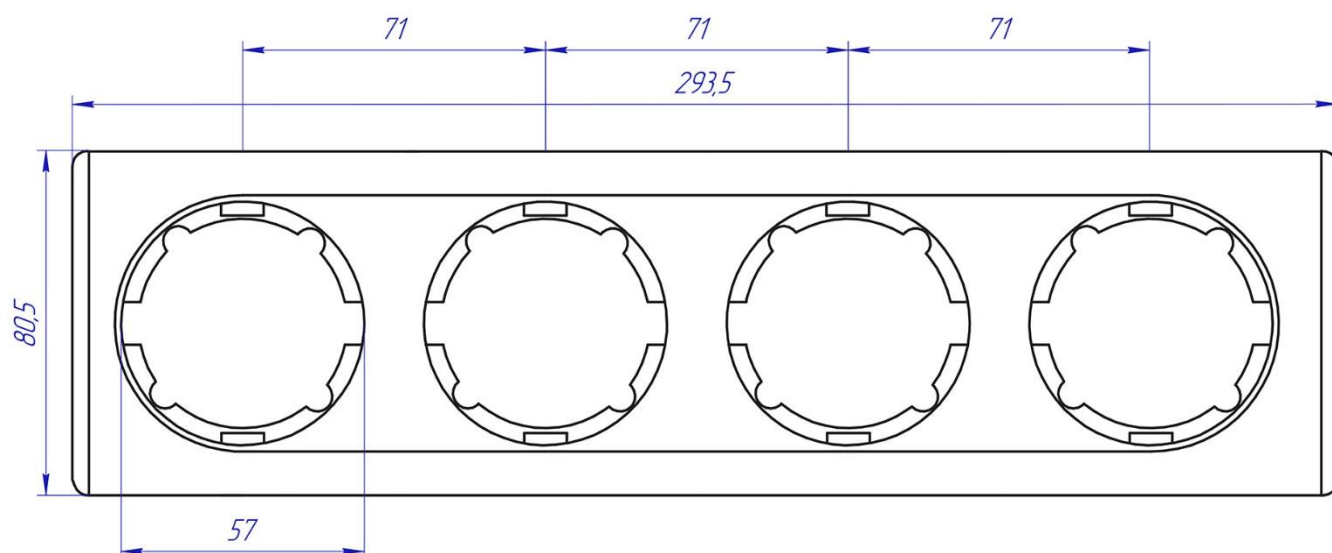

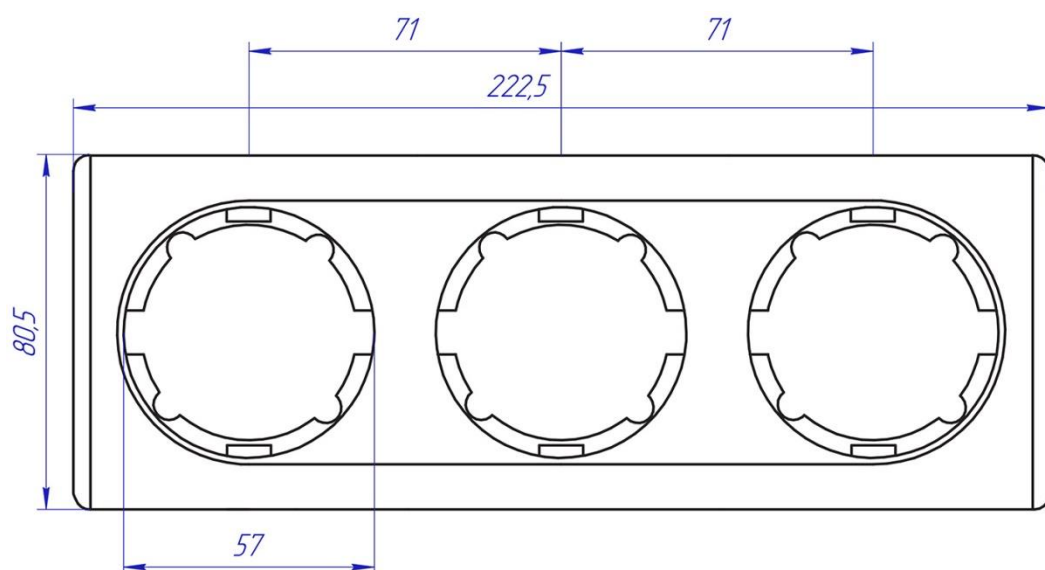

Installation dimensions of Florence cover frames

Frames for 2–5 devices are designed for horizontal installation.

A center-to-center distance between the devices is 71 mm.

	Florence Frames
	1E5210130x-E, 1E5220130x-E, 1E5230130x-E, 1E5240130x-E, 1E5250130x-E

Order codes for ordering products (see Data sheet and Operation Manual for the corresponding electrical installation product)

Order codes for selecting frames

The product is not equipped with a frame. The choice of the frame depends on the number of devices installed in a row. It is possible to combine different devices of electric installation products of Florence series in one multi-gang frame. The choice of the frame color depends on the interior design.

Order codes with a brief description:

Name	Dimensions	Color	Order code
1-gang frame	80,5x80,5 mm	white	1E52101300-E
		beige	1E52101301-E
		gray	1E52101302-E
		black	1E52101303-E
2-gang frame	80,5x151,5 mm	white	1E52201300-E
		beige	1E52201301-E
		gray	1E52201302-E
		black	1E52201303-E
3-gang frame	80,5x222,5 mm	white	1E52301300-E
		beige	1E52301301-E
		gray	1E52301302-E
		black	1E52301303-E
4-gang frame	80,5x293,5 mm	white	1E52401300-E
		beige	1E52401301-E
		gray	1E52401302-E
		black	1E52401303-E
5-gang frame	80,5x364,5 mm	white	1E52501300-E
		beige	1E52501301-E
		gray	1E52501302-E
		black	1E52501303-E

Conditions for safe installation and operation

ATTENTION!

Electrical equipment may only be installed and assembled in accordance with the installation instructions and by qualified electricians in compliance with the applicable accident prevention regulations. Failure to comply may result in damage to the device, fire or other hazards.

Improper installation and use may result in electric shock or fire.

All work should be carried out only when the voltage is completely removed from all current-carrying parts located in the work area.

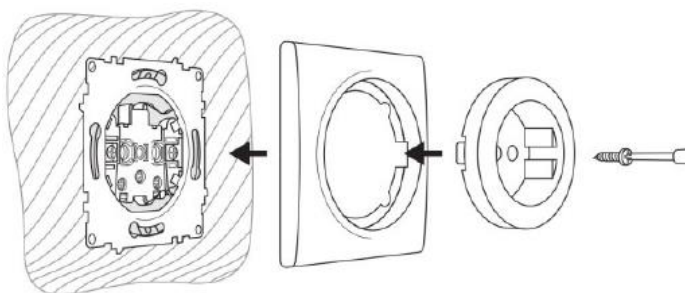

These instructions are part of the product and must remain with the end user or can be downloaded at any time from the manufacturer's website at the following link: www.warm-on.com

BEFORE INSTALLATION

it is necessary to carry out technical measures to ensure the safety of work, in accordance with applicable rules and regulations.

The sequence of installation of the frame by the example of the SCHUKO socket outlet:

1. Apply the frame so that it fits tightly to the support ring of the previously installed device and has no gaps with the wall.
2. Insert the front plate into the frame and tighten it with the screw.

3. The front plate fixes the cover frame, the product is installed

Warranty

We reserve the right to make technical and formal changes to the product in the interests of technical progress.

The manufacturer establishes a warranty period of 2 years, calculated from the date of sale, provided the consumer observes the rules of transportation, storage and operation of the product.

In case of malfunction during the warranty period, the consumer should apply to the place of purchase of the product.

The manufacturer reserves the right to refuse to meet the requirements of the consumer for warranty obligations, in the event of the following conditions:

- Any mechanical damage to the product;
- Product design changes;
- Damage caused by improper or inappropriate use; moisture or lightning damage;
- Damage caused by non-compliance with standards or technical regulations of power, cable or telecommunication networks;
- Unauthorized repair or opening of the product.

Limitation of Liability

The manufacturer is not responsible for:

- direct, indirect or consequential damages, loss of profit or commercial loss in any way related to the product;
- possible damages directly or indirectly caused by the product to people, pets, property, if this occurred as a result of failure to comply with the rules and conditions of operation, installation of the product, in violation of applicable standards and regulations, or as a result of intentional or negligent actions of the buyer (consumer) or third parties.

The liability of the manufacturer cannot exceed the intrinsic value of the product.
